

## Ghid upgrade Firmware - Huawei R215

1. Se conecteaza hotspot-ul la PC/laptop prin cablul de date USB.
2. Se verifica in Device Manager daca s-a instalat correct in "Network adapters" si "Universal Serial Bus Controllers".

3. Se executa (dublu click) fisierul "R215 MobileWifi Firmware v6.0.exe" (descarcata de pe [www.oriunde.net](http://www.oriunde.net))

4. In prima fereastra afisata este indicata versiunea de firmware ce urmeaza a fi instalata. Se apasa “Next”.

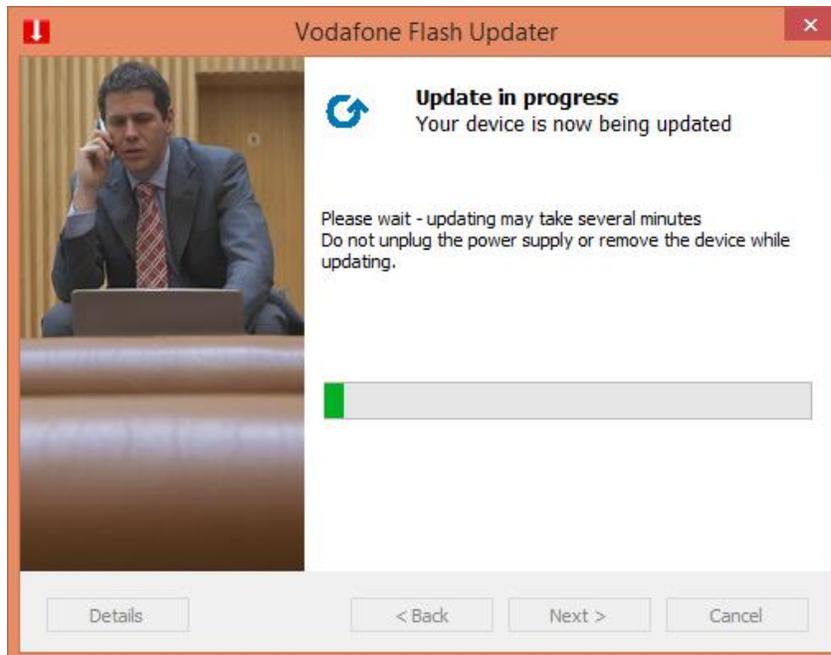

5. In fereastra urmatoare sunt afisate informatii importante cu privire la update. Se apasa “Next”.

6. In fereastra urmatoare se face confirmarea update-ului de firmware prin apasarea butonului "Start".

7. Se asteapta efectuarea update-ului de firmware.

8. In fereastra de confirmare de la final se apasa "Exit".

9. Verificarea versiunii de firmware se poate face din interfața hotspot-ului in meniul "Help" la "Diagnostics".

The screenshot shows the Vodafone Mobile Wi-Fi diagnostics interface. At the top, there are tabs for "Mobile Wi-Fi", "Storage", "SMS", and "Account", along with a "Choose language" dropdown and a "Logout" button. Below this is a red navigation bar with "Mobile Broadband", "Wi-Fi", "Router", and "Help". The "Help" tab is selected, and the "Diagnostics" sub-tab is active. The main content area is titled "Vodafone Mobile Wi-Fi diagnostics" and contains a table of "Mobile Wi-Fi information". The "Software Version" is highlighted with a red box and shows the value "6.0". Other information includes Product name (R215), Web UI Version (2.033.8363), Hardware Version (CL1E5372SM04), Serial Number (B2CDW14620000258), Serial no. of SIM (ICCID) (8940011409131357864F), SIM Number (MSISDN) (SIM Number), Serial no. of device (IMEI) (358151051003019 / 04), IMSI (226013551035786), SIM Status (Ready), and Time since startup (37 mins 13 secs). On the right side, there is a "Home network" section showing "Mobile number", "Signal", "Status" (Connected), "Network" (Vodafone RO 4G), "Time connected" (00:00:49), "Total volume" (31.15MB), and "Up/Down" speeds (7.72Kb/s / 106.09Kb/s). At the bottom right, there are expandable sections for "Battery Status (90%)", "Wi-Fi Status", and "Connected devices (2)".
